TICKETS / DEALS SOLUTION

An easy and simple and inexpensive way to sell tickets for you conference, event, festival and more.....

Through CX Events has launched its ticket's solution's platform, where organizers can sell their tickets, specials and events online.

Benefits:

- No or very low Setup charges
- 20+ payment methods
- Availability for tickets per seat
- Coupons for discount
- Free App to keep track of purchased tickets
- Scanning ticket at entrance
- Offline tickets also available

www.cxevents.global

The screenshot displays a ticket listing for 'GLOBAL ENTREPRENEURSHIP WEEK HOW TO EXPAND YOUR BUSINESS IN CHALLENGING TIMES!!!'. The event features a keynote speaker, Jeff Hoffman, Global Entrepreneurship Network Chairman, on November 30, 2022, from 11:30 AM to 13:30 PM at the Central Bank of Curaçao & St. Maarten. The ticket price is \$100.00. The interface includes a 'TICKET TYPE' table with columns for 'TICKET TYPE', 'PRICE', and 'CART'. The table lists 'Global Entrepreneurship Week Curacao - Lunch' with a price of '\$ 100,00' and an 'ADD TO CART' button. The page also features a currency selector (ANG/USD) and a footer with contact information and logos for various partners.

GLOBAL ENTREPRENEURSHIP WEEK HOW TO EXPAND YOUR BUSINESS IN CHALLENGING TIMES!!!

Lunch with guest speaker:
Jeff Hoffman

CROWDFUNDING SOLUTION

*Donations Based
Custodian Account
Easy Setup*

A DONATIONS BASED CROWDFUNDING SOLUTION

Through CX 2 Fund, CX Pay has launched its donations-based platform, where campaign owners can be able to receive funds during these trying moments.

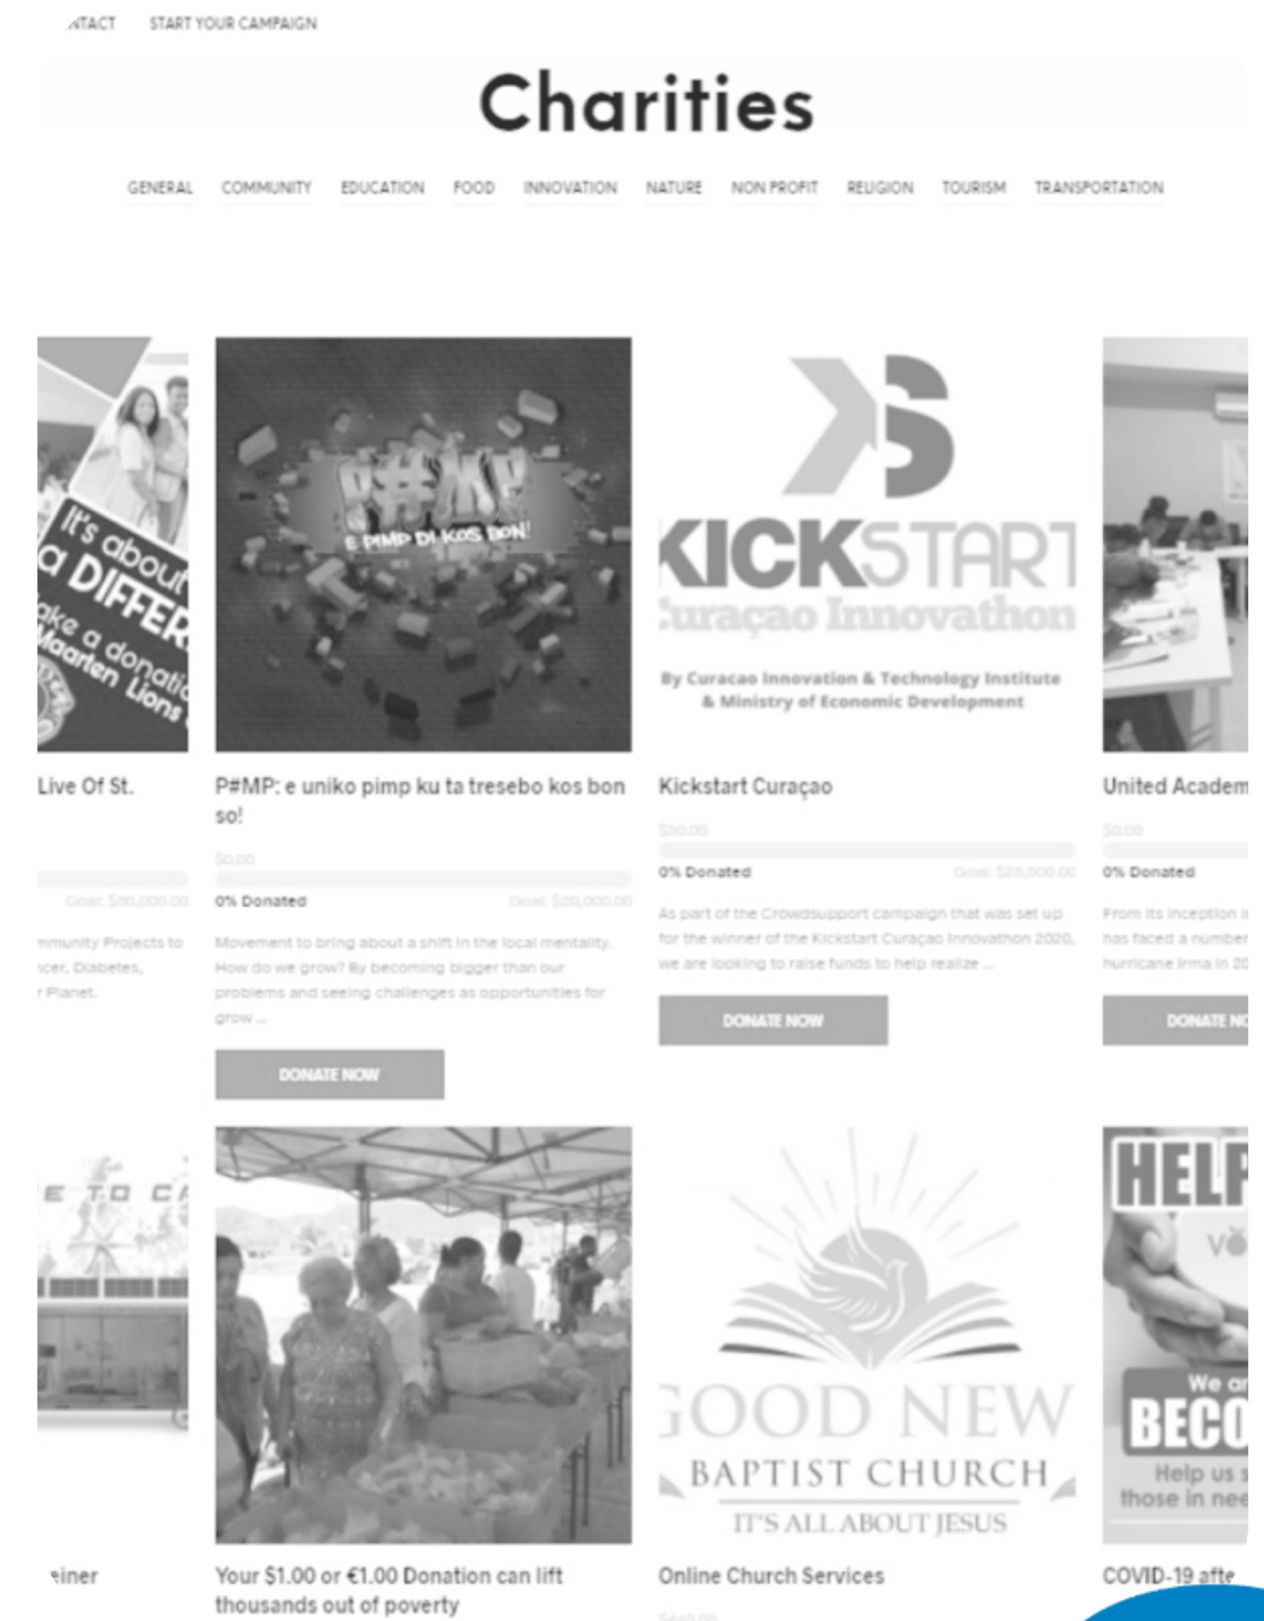

These campaigns will show a status of how much as been donated to the specific cause.

We can call it our own “gofundme” program with not just a local flavor, but also processed and paid through local solutions.

Payouts:

- Weekly
- Monthly
- No Monthly fees
- No Setup charges

Setup and Go Live as soon as KYC Docs have been submitted (and agreement) has been signed

Online Church Services

\$3,570.00
1% Donated Goal: \$250,000.00

At this time when many are not allowed to gather to hear from God's, we need to send His word out. This campaign is needed to help spread God's word online as we are now not able to have regular church services. Supporting this campaign would help cover the cost of the persons, equipment, software, and expertise needed to continually stream our services.

People are dying without having this vital relationship with God and you can help change this.

In Betèsda LIFE continues

\$335.00
0% Donated Goal: \$475,000.00

It is a great necessity for every citizen to feel connected with the society in which they are living. As a citizen in our society, this is also the need of our clients, the residents in our nursing home Betesda within the foundation Stichting Verpleeghuizen Curaçao. All our residents are somatic and/or psycho-geriatric clients in need of 24/7 special care regarding nursing, medical and paramedic care. Not only do our residents have a daily routine, but they have the possibility to participate in different activities in the nursing home. These are activities in which the clients are targeted individually and/or in groups. Dependent of the health status that may varied constantly and on a daily basis, can our clients participate in activities beyond the surroundings of our organization. Due to this limit is participation in our community by the majority of our clients, the residents in our nursing home, unfortunately minimum or even zero.

DESCRIPTION

Some images of the daily accomplishments, thanks to your contributions:

DESCRIPTION

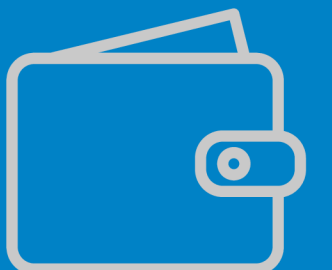

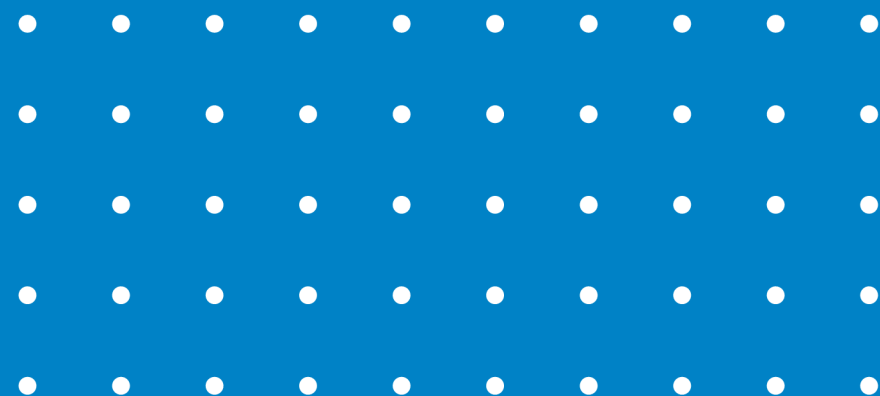

This is the main purpose of our project within this year and especially in the month March 2023, to help our residents get connected with each other and with the community. This can be done by giving them the possibility to gather, do activities and get in touch with others in a happy and friendly place and to bring the community in our nursing home. Therefore was one in the mission to build a mission station that our clients can have this mission station for gathering.

HARDWARE

*EMV Certified
Owned Hardware
Tap on Glass / Phone
Contactless*

PHYSICAL HARDWARE

(A CARD-PRESENT SOLUTION)

Acceptance Devices can be used in conjunction of a bluetooth connection with any mobile device, not just a tablet, but an iphone or android, in All-in-One mode where the mobile device communicates with our Application on the merchant's device and will receive payments via a tap or dipping the card which is present.

Solution is used especially for Nano and Micro Merchants and or merchants like taxis and popup events.

PHYSICAL HARDWARE

(A CARD-PRESENT SOLUTION)

Choose from a examples below to fit your needs

Ingenico Link/2500 Cloud EMV

Versatile and reliable, this mobile reader allows merchants to take contactless, chip, swipe, and keyed transactions all from one device. This device is built to work with software developed using Customer-Present Cloud only.

Ingenico Lane/3000EMV

Versatile and reliable, this reader allows merchants to take contactless, chip, swipe, and keyed transactions all from one device. (Also available in Cloud version, however, this device is built to work with software developed using Customer-Present Cloud only. Note: Ethernet Connection icon is not available on this device yet.)

Ingenico Lane/5000 emv

Versatile and reliable, this reader allows merchants to take contactless, chip, swipe, and keyed transactions all from one device, and accept signatures on its color display. (This device is also built to work with software developed using Customer-Present Cloud only)

PHYSICAL HARDWARE

(A CARD-PRESENT SOLUTION)

How do we do this

With the partnership with Cybersource, we can execute a Card-Present solution with the current gateway and provide hardware with this.

With this solution, banks provide CX Pay with the Merchant settings to be added into the gateway and the rest will be handled by CX Pay and its network.

Based on MDR of Bank, including managing licenses

- Choice of hardware (Ingenico, Veifone and PAX)
- Now also access online reporting
- Ability to capture and refund (from online portal)
- Visa Developer APIs Management
- Master Developer APIs Management

PHYSICAL HARDWARE

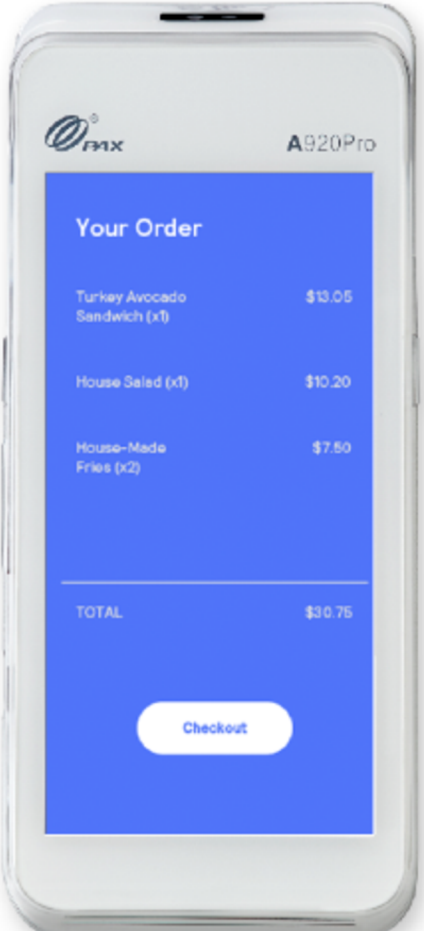

(A CARD-PRESENT SOLUTION)

Semi-Integrated

POS application runs on a separate device and communicates with the terminal over the local network to accept payments. Supported with PAX A920 Pro, A77 and A35.

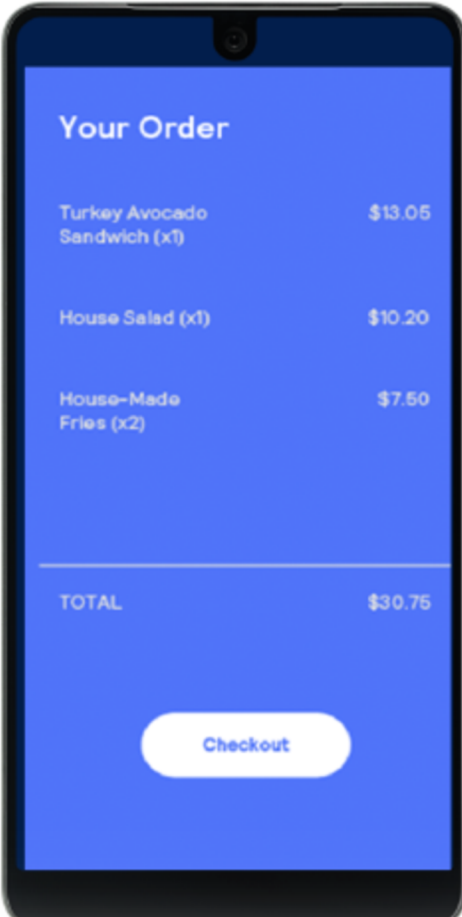

[PAX Semi-Integrated Solution](#)

All-in-One

POS application runs on a terminal, enabling you to manage your business directly from the terminal. Supported with PAX A920 Pro and A77.

[PAX All-in-One Solution](#)

Tap to Phone

POS application runs on a smartphone, enabling you to turn your smartphone into a payment terminal. Supported with Android smartphones.

[Tap to Phone Android](#)

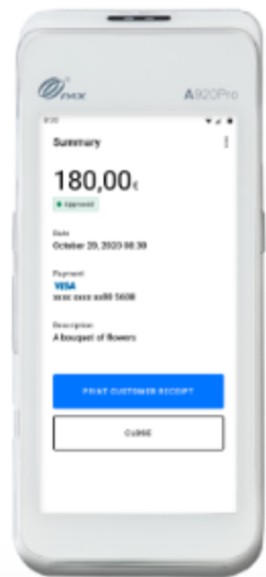

Acceptance Devices can be used in Semi-Integrated mode with your mobile or desktop point-of-sale (POS) application, in All-in-One mode where the POS application runs locally on a terminal, or in Tap to Phone mode where the POS application runs on a smartphone.

PHYSICAL HARDWARE

(A CARD-PRESENT SOLUTION)

Choose from a wide range of devices to fit your needs

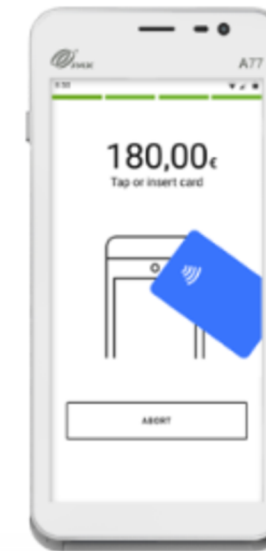

Portable
PAX A920 Pro

5.5-inch touchscreen portable terminal running Android 8 with built-in printer. Supports WiFi and 4G connectivity.

Countertop
PAX A35

4-inch touchscreen countertop terminal running Android 10 with physical pin-pad. Supports WiFi and Ethernet connectivity.

Mobile
PAX A77

5.5-inch touchscreen mobile terminal running Android 8 with built-in barcode scanner. Supports WiFi and 4G connectivity.

Tap to Phone
Android

Turn any compatible Android 11+ phone with NFC reader into an acceptance device.

TAP TO PHONE

(A CARD-PRESENT SOLUTION)

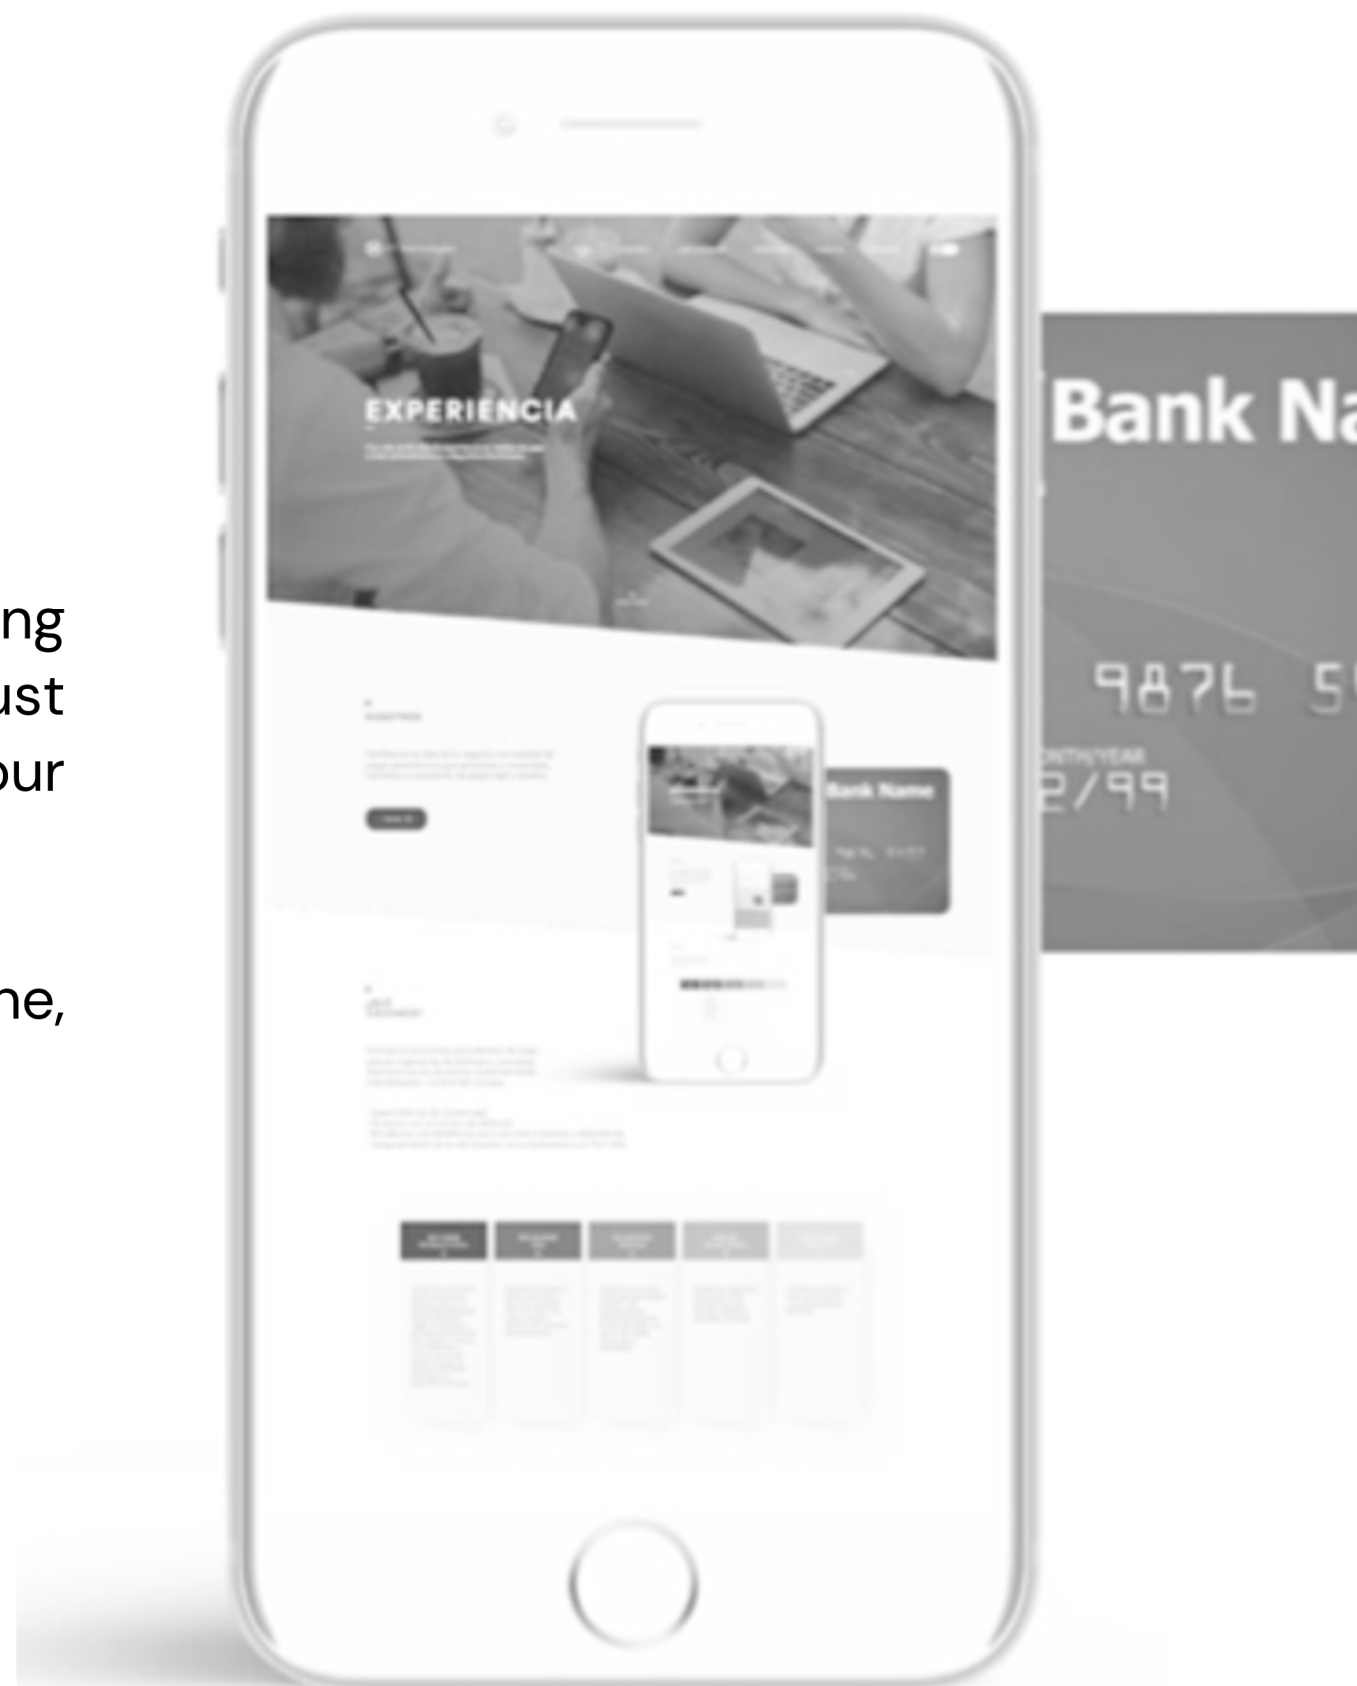

What do we do

We provide innovative technological solutions for payment card industry, using software engineering and efficient processes that follow in an agile and robust platform, for banks, financial institutions and other industries together with our partners in the region and LatAm.

We have the most advanced FinTech technology in the region for Tap2phone, Network Tokenization, Payer Authentication, mCommerce, etc.

It is an electronic payment service platform:

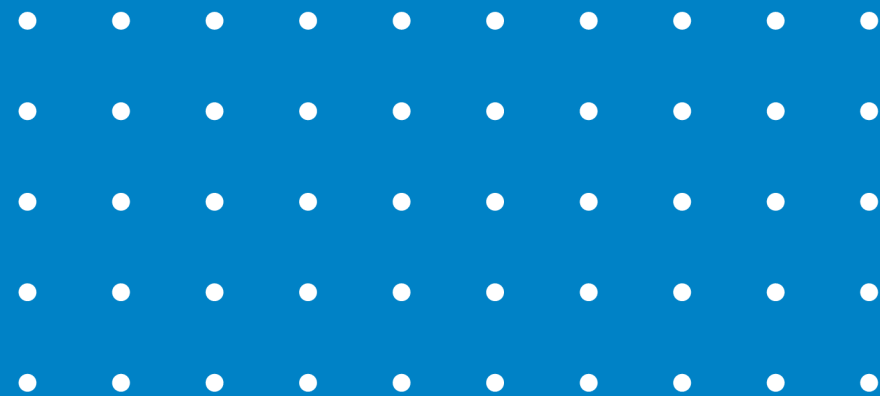

- Tap 2 Phone
- mPos
- Card on File Administration
- eCommerce
- APPs
- Visa Developer APIs Management
- Master Developer APIs Management

AFFILIATION

Curaçao Fintech Association

CURAÇAO FINTECH ASSOCIATION

Purpose

Representing the interest of FinTech Companies / Organizations on the island Be the official sparring partner for governmental institutions and stakeholders.

Achievements

- Assisted with the EMI (Electronic Money Institution) License, virtual assets regulations and "Basic payment account" Endorsement from the CBCS to become the official representative organization for the Fintech market.
- Member of the National Payment Council for Curaçao and Sint Maarten
